- Our internships in Ireland are available all year.

THE BENEFITS OF AN INTERNSHIP IN IRELAND

An internship in Ireland is an amazing way for you to learn new skills, improve your English language and experience the Irish culture. The programmes are open to students, graduates and Erasmus participants and can be completed at any time of the year.

Internships are periods of work experience offered by employers to provide you with an opportunity to learn about the working environment, gain experience in your chosen sector and improve your skills. You can choose an internship from 2 months to 6 months. Internships provide great opportunities to speak directly to people who have experience in the work you aspire to; and their knowledge of the job and working environment will give you a greater understanding of what you need to do to progress.
